

CCK30715AF

1/2.8" High Sensitivity 4K CMOS 30x Zoom/AF Camera Module

■ Overview

- 4K camera module equipped with SONY Startvis color image sensor.
- Equipped with 1/2.8" 30x optical zoom lens for 4K.
- Adoption of compact size housing.

■ Feature

- Near-infrared sensitivity is greatly improved compared to conventional sensors, and when combined with near-infrared light, surveillance images at night become clearer.
- Supports auto ICR operation, automatically switching from daytime color images to nighttime near-infrared images
- Due to Binning mode, the maximum sensitivity is more than doubled compared to Normal.
- 30x optical zoom and 15x digital zoom for a total of 450x zoom.
- Equipped with auto iris, auto electronic shutter, auto gain, auto white balance, and auto focus.
- Equipped with various correction functions according to the image scene (DNR, WDR, fog, heat haze, etc.).
- Supports TMDS output and easily converts to HDMI.
- Supports EX-SDI/3G-SDI/HD-SDI output, enabling long-distance wiring up to 400m without image quality degradation.
- Supports 2160p, 1440p, 1080p, 1080i video formats.
- Flexible support for additional functions.
